Governor's Office of Highway Safety (GOHS): Law Enforcement Data Entry Web Site – DRE

Web-based entry of DRE
reporting statistics...
making Arizona safer

New, complex requirements

In addition to its responsibility for heading the state's DUI task force, The Arizona Governor's Office of Highway Safety also must work with other agencies in various efforts to manage other substances and their abuses.

The National Highway Traffic Safety Administration (NHTSA) supports the Drug Evaluation and Classification Program for using Drug Recognition Experts (DREs) to examine persons suspected of being under the influence of drugs and ascertain what category of drugs (or combination of categories) may be in use. This work is similar to DUI reporting, although considerably more complex. DREs are required to maintain a log of all of their evaluations, which can be a highly time-consuming task.

PHOENIX POLICE DEPARTMENT DRUG INFLUENCE EVALUATION				EVALUATOR:	
REPORT NUMBER:				IACP#: ROLLING LOG#:	
TYPE OF EVALUATION: Enforcement/				SCRIBE:	
ARRESTEE'S NAME (Last, First, Middle)				WITNESS:	
Date Examined / Time / Location	Breath Results:	Test Refused:	Chemical Test:	Urine	Blood
Miranda Warning Given	What have you eaten today? When?	What have you been drinking? How much?	Time of last drink?		
Time now/ Actual	When did you last sleep? How long?	Are you sick or injured?	Are you diabetic or epileptic?		
Do you take insulin?	Do you have any physical defects?	Are you under the care of a doctor or dentist?			
Are you taking any medication or drugs?	Attitude:	Coordination:			
Speech:	Breath Odor:	Face:			
Corrective Lenses:	Eyes:	Blindness:	Tracking:		
Glasses:	Normal	None	Equal		
Pupil Size:	Vertical Nystagmus	Able to follow stimulus	Eyelids:		
Pulse and time	HGN	Right Eye	Left Eye	ONE LEG STAND	
1. /	Lack of Smooth Pursuit	Present	Present	L R	
2. /	Maximum Deviation	Present	Present	Sways while balancing	
3. /	Angle of Onset			Uses arms to balance	
Rhomberg Balance	Walk and turn test	Cannot keep balance		Hopping	
		Starts too soon		Puts foot down	
		Stops walking			
		Misses heel-toe			
		Steps off line			
		Raises arms			
		Actual steps taken			
Internal clock estimated as 30	Describe Turn	Cannot do test (explain)		Type of footwear:	
Draw lines to spots touched	PUPIL SIZE	Room light	Darkness	Direct	
	Left Eye			Nasal area:	
	Right Eye			Oral cavity:	
	HIPPUS	REBOUND DILATION	REACTION TO LIGHT:		
	RIGHT ARM	LEFT ARM			
Blood pressure	Temperature				
Muscle tone:	Flaccid	Rigid			
What drugs or medications have you been using?	How much?	Time of use?	Where were the drugs used? (Location)		
Date / Time of arrest:	Time DRE was notified:	Evaluation start time:	Evaluation completion time:	Precinct/Station:	
Opinion of Evaluator:	Depressant	Hallucinogen	Narcotic Analgesic	Cannabis	Medical Rule Out
	Stimulant	PCP	Inhalant	Alcohol	No Opinion
Officer's Signature:	Felony Offense:	Misdemeanor Offense:	Reviewed/approved by / date:		

A common solution for like challenges

Because of the similarities, to facilitate the process the Arizona Portal team, working with GOHS, has incorporated an On-line Drug Recognition Expert System into the same design scheme as was created for the GOHS DUI system, with a similar method of operation. For consistency, cross communication and cost savings, the GOHS On-line Drug Recognition Expert System application and database is deployed on the Arizona Portal infrastructure.

The results

As a result of these efficiencies, the new application was created for approximately \$125,000 in about 24 weeks and requires a monthly hosting cost of only \$1,100. And benefits go far beyond cost savings. DREs can conveniently enter data and print DRE logs from any personal computer with Internet access. GOHS now has a centralized, complete, accurate statewide database of all Arizona DRE activity; the ability to measure and track DRE activity to better support resource allocation; and the ability to report statistically accurate and complete summary data to NHTSA. This enables GOHS and related agencies to help ensure a safer, better-controlled environment across the state.

What the Customer Said

"It's made using and reporting for my database so much easier than ever before."

Dan Mulleaneaux, Program Manager, GOHS

We're glad we could help, working hand in hand with:

- Arizona Department of Transportation
Motor Vehicle Division
- Arizona Government Information
Technology Agency
- Administrative Office of the Courts
- Arizona Department of Economic Security
- Arizona Department of Environmental Quality
- Arizona Government University
- Governor's Office of Highway Safety
- Arizona Department of Insurance
- Arizona State Board of Naturopaths
- Arizona State Board of Pharmacy
- Arizona State Board of Physical Therapy
- Arizona Department of Public Safety
- Arizona Department of Real Estate
- Arizona Registrar of Contractors
- Arizona Schools for the Deaf and Blind
- Arizona Board of Technical Registration
- Arizona Department of Weights and Measures
- and many more
